

Condition

On pages 15, 16 and 17 there are clippings printed on newsprint adhered with water soluble adhesive over written manuscript. The clippings are discolored as is the adhesive. The paper support of the clippings is brittle. The paper support of page 15 is skinned with text loss and has adhesive staining throughout. The clippings on page 16 have noticable water stains and there is adhesive throughout. Page 17 also has adhesive throughout. There are large, blue ink stamped page numbers on the upper corner of each page. The scrapbook pages overall are discolored, slightly foxed and slightly cockled. The scrapbook sewing has loosened making the pages loose. The sewing stations have torn. Leaf 17 has a bent lower corner near the spine. There is surface grime concentrated near the gutter.
